

RETRACTION OF ARTICLE ENTITLED “SYNTHESIS AND CHARACTERIZATION OF ZINC GLYCEROLATE: IN VITRO TOPICAL IRRITATION, UV PROTECTION AND ANTI-MICROBIAL ACTIVITY”

The editorial board of Malaysia Journal of Science would like to retract the article entitled “Synthesis and Characterization of Zinc Glycerolate: InVitro Topical Irritation, UV Protection and Anti-Microbial Acitivity” authored by Mei Yee Cheong published in Malaysian Journal of Science 33(2): 183-199(2014). This article was found to be duplication work of another article by the same authored entitled “Preparation and characterization of zinc glycerolate: UV protection, biological activity and permeation study” published by Journal of Saudi Chemical Society and available online from 21 September 2015 with doi:10.1016/j.jscs.2015.09.002. The full bibliographic information of the retracted article is summarized below.

Synthesis and Characterization of Zinc Glycerolate: InVitro Topical Irritation, UV Protection and Anti-Microbial Acitivity
